

Ultra-langes Wirkprofil

Konstante Plasmaspiegel am 3. Tag erreicht

Relative Serum Insulin Degludec Konzentration in Patienten mit T1DM

Krones R. et al. Insulin degludec – ultra-long-acting basal insulin, which forms multi-hexamers and has a lower pharmacodynamic variability than insulin glargine at steady-state. Präsentiert bei: Australian Diabetes Society and Australian Diabetes Educators Association Annual Scientific Meeting, 31 August – 2 September 2011, Perth, Australien

Steady-State in biologischen Systemen

Insulin with a $T_{1/2}$ of ~ 24 h
